1959 SPRING WHOLESALE PRICE LIST OF HARDY MUMS

Here is a list of good varieties of Hardy Mums to grow outdoors for cut flowers, pot plants or for you to sell right now to your customers for their home garden plantings. All are proven varieties that have large flowers and will all bloom before normal frost dates in your locality.

Remember these plants are **NOT** divisions, but are cuttings that have been rooted, then grown into a nice plant in a clay pot. They are then placed in a 2¼-inch paper pot for shipment to you. These plants retail for 50c each or 3 for \$1.00 as small plants ready to set outdoors. Any unsold plants could be planted out by you, then next fall at blooming time you could sell the colorful plants to your customers at \$1.50 each by digging up and placing in a large Cloverset pot. You would make a good profit for yourself and at the same time furnish your customer a nice plant to enjoy the blooms for several weeks in his own home.

Order your plants today from the complete line below; guaranteed to please you in everyway. Shipment can be made to suit you, just tell us when and they will go out to you on that date. The smallest order accepted is for 100 plants, but of course they can be assorted any way you wish. (Be sure to read that special bargain. That makes a dandy trial order.) **TERMS:** Cash with your order, **PLEASE**. We don't ship **C.O.D.** **NOTICE:** We have Kansas nursery inspection permit to ship our stock into the entire U.S.A.

ADDRESS ALL ORDERS TO

MERLE PAYNE MUM GARDENS

2814 SOUTH 42ND STREET

KANSAS CITY 6, KANSAS

Please Read This Letter To You!

Kansas City, Kansas, 1/20/59

For the past forty years I have grown Dahlias, Hardy Mums and other cut flowers for florists of Greater Kansas City. The surplus roots and plants are sold all over the U.S.A. to Nurserymen, Florists, Greenhouses, Garden Shops and flower growers.

Now my son Merle wanted to also grow flowers, so nine years ago I turned over all my Hardy Mums for him to try out. He started with a small, lean-to greenhouse, a home-made size 16x20 feet, and did so well that he had to build a modern greenhouse to properly handle a growing mum business. His local customers who started with just 100 plants as a trial order now buy several thousand a year and he has held all of his customers year after year by producing strong, healthy, quality plants at a reasonable price.

I am 68 years old and it is time that I retire so his mother and I can do some delayed traveling. Today I am now turning over all of my Dahlia business to him. I sure would appreciate your sending him your orders from now on. I know Merle will treat you right and give you good quality roots and plants at lowest prices. Thanking you for past business, I am,

Cordially yours,

Frank Payne, Prop.,
PAYNE DAHLIA FARMS
